# Warboys Parish Council Website Accessibility Report

## 1. Introduction

All pages were individually checked using the WAVE evaluation tool, screen prints of the results for each page are in Appendix A.

## 2. Errors

All pages were shown to have no errors and so pass the standards required of Web Content Accessibility Guidelines (WCAG) 2.1

## 3. Contrast Errors

All pages were shown to have no contrast errors and so pass the standards required of Web Content Accessibility Guidelines (WCAG) 2.1

## 4. Alerts

Alerts are issued where there is the possibility that elements of the website may be inaccessible and therefore require further manual checking. In this test, alerts were issued for 2 reasons across a number of pages

### a. PDF Documents

A number of pages, where PDF documents are referenced, showed alerts for possible failures as follows

---

Link to PDF document

A link to a PDF document is present.

REFERENCE

CODE

---

The guidelines state that PDF documents often have accessibility issues. Additionally, PDF documents are typically viewed using a separate application or plug-in, and can thus cause confusion and navigation difficulties.

The website has therefore been changed to identify that documents are PDFs (This does not remove the alert as it is still a risk that the document is inaccessible.

# Warboys Parish Council Website Accessibility Report

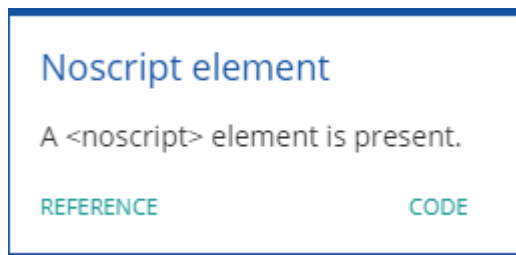

In addition, a number of the documents have been run through an accessibility checker (see Appendix B for an example)

It is recommended that documents that cover more than one page have a header on every page and a trailer with the page number.

Note that the documents contained within the website do not make the website non-compliant.

## b. NOSCRIPT Element

An alert is issued from the Contact Page as follows

Content within <noscript> tags is presented if JavaScript is disabled. Because nearly all users (including users of screen readers and other assistive technologies) have JavaScript enabled, <noscript> cannot be used to provide an accessible version of inaccessible scripted content.

In the case of the contact form, the <noscript> tag is used to display a simple text line as follows

Please enable JavaScript in your browser to complete this form

and is not used to provide an accessible version of inaccessible content. The contact form itself has been amended to remove contrast errors

## 5. Recommendations

The following actions are recommended to ensure future compliance and accessibility as changes are made to the Warboys Parish Council Website

- a. Amend Word document templates for all documents (including, but not limited to, minutes and agendas) to include “running headers and footers” and where necessary to use bookmarks and/or contents pages for longer documents.

These will be carried forward to the PDF documents as they are loaded to the website and each PDF file loaded will be checked for accessibility.

*NB. The built-in accessibility checker in Microsoft Word does not find any issues with the word templates currently being used.*

# Warboys Parish Council Website Accessibility Report

- b. After any updates to the website (aside from documents being loaded) a new WAVE check will be carried out on the page(s) being updated

END OF DOCUMENT : APPENDICES FOLLOW

# Warboys Parish Council Website Accessibility Report

## Appendix A – Screenshots of Wave Checks for all pages

Each page was checked individually and the results of each check are shown below

The screenshot displays the Wave web accessibility evaluation tool interface. The left sidebar shows the 'Summary' tab with the following results:

- Errors: 0
- Contrast Errors: 0
- Alerts: 0
- Features: 4
- Structural Elements: 18
- ARIA: 21

A message at the bottom of the sidebar states: "Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility." A "View details" button is also present.

The main content area shows the website being evaluated, which is the Warboys Parish Council website. The page title is "Warboys Parish Council". The header includes navigation links: Home, Councillors, Meetings, Minutes, Agendas, Documents, Amenities, Finance, Contact, Scams, Delegated Decisions, COVID-19, and Warboys Diary. The main content area features a "Home" section with a "COVID 19" heading and a "Useful Websites" section listing Warboys Unites, Friends Of Warboys Library, Huntingdonshire DC, and Cambridgeshire CC. A "Forthcoming Meetings" section is also visible.

**Leisure Areas**

The Council owns and maintains a number of playgrounds and open spaces in Warboys which are available for use by the public.

The Adams Lyons playground in Church Road is the largest and has the widest range of play equipment for both teenagers and younger children. The Council has invested over £70,000 in new equipment over the last 4 years and is grateful to various funders who have helped with grants towards the cost, including Cambridgeshire Play Pathfinder scheme, Woodford Community and Environmental Fund and Red Tile Wind Farm Trust Fund Ltd.

Jubilee Park in Farriers Way was acquired by the Council towards the end of 2013 from the developers of the site.

**Scams**

Scams are an unfortunate fact of modern society with residents suffering great financial and emotional harm if they fall victim to fraudsters.

The Council has become a supporter of the Cambridgeshire and Peterborough Against Scams Partnership and will be circulating and publicising information supplied by the Partnership to help people be aware of the latest scams and protect themselves against fraud.

Anyone can become a Friend Against Scams by completing a 20 minute 'express' on-line training at the [Friends Against Scams website](#)

# Warboys Parish Council Website Accessibility Report

## Appendix B – Example of PDF Accessibility check

The screenshot shows the Tingtun Checker interface. The main heading is "Tingtun Checker" with a "Login" link. Below the heading, there are tabs for "eAccessibility" and "Contact". The "eAccessibility" tab is active, showing a sidebar with links to "Page Checker", "PDF Checker", "Benchmarking", "Checkers Tests", "FAQ", "User testing tool (beta)", and "Dev Blog". The "PDF Checker" section is expanded, showing the "PDF Check Result" for the URL <http://www.warboyspc.info/wp-content/documents/Standing%20Orders.pdf>. The result shows "Barriers found: 2" in a red box. Below this, it states "Checked PDF:" followed by the same URL. The "Time" is "2020-09-21, 12:42". The "Applied Tests" summary shows "Total: 8, Fail: 2, Pass: 6". The "Permalink" is <http://www.warboyspc.info/wp-content/documents/Standing%20Orders.pdf>. The "Result Details" section for the same URL shows a table of applied tests. The table has two columns: the test name and the result (pass/fail count). The tests are: Running Headers and Footers (Test status: Experimental) (Fail: 1), Bookmarks (Fail: 1), Correct Tab and Reading Order (Pass: 1), Document Permissions (Pass: 1), Document Title (Pass: 1), Scanned Document (Pass: 1), Structure Elements (tags) (Pass: 1), and Natural Language (Pass: 1). A large grey arrow points to the right, with the text "Select a test to display the details".
